

**LEARJET 60
AMBULANCE JET**

XA-CST

SCOPE OF OPERATIONS

Worldwide ambulance flights (intensive care transports, repatriations) Single ICU patient.

CREW

2 pilots, emergency physician and paramedic

PERFORMANCE

MANUFACTURER: Gates Learjet, Wichita, USA

ENGINES (2): P&W

MAX. POWER PER ENGINE 1.600 kg thrust (15.6 kN - 4600 lb)

CRUISING SPEED: approx. 850 km/h (460 kts/h)

MAX. OPERATING ALTITUDE approx. 15,000 m NN (51,000 ft)

RANGE: approx. 4,600 km (2,500 NM)

MAX. FUEL LOAD: 3,500 liters (925 US gal)

MAX. TAKE-OFF WEIGHT: 10.600 kg (23,300 lb)

MIN. TAKE-OFF/LANDING RUNWAY LENGTH: at least 1,400 m (4,600 ft), depending on load, altitude, temperature

DIMENSIONS: Length: 18.00 m (48 ft 8 in), Height: 3.73 m (12 ft 3 in), Wingspan: 12.03 m (39 ft 6 in)

MEDICAL EQUIPMENT

Full Intensive care set for Adult ,Pediatric and Neonatal Patients. Extensive ACLS and Specialty Drugs, Trauma immobilization and personal care items.

Multi-parameter monitor , defibrillator and Pacemaker Zoll X

ICU Ventilator Hamilton T1

Portable Laboratory Istat

Portable Ultrasound GE

ECMO Cardiohelp

3 Channel Infusion pump Minimed III
